Education

Chandigarh Engineering College- CGC Landran

Aug. 2023 – July 2027

CGPA: 7.58

Bachelor of Technology in Information Technology

Mohali, Punjab

Summary

Detail-oriented Information Technology undergraduate with strong foundations in Data Structures, Java, Web Development, and Machine Learning. Hands-on experience in building responsive web applications, deploying projects on cloud platforms, and basic exposure to DevOps tools including Docker, Kubernetes, CI/CD pipelines, and networking fundamentals. Actively seeking entry-level Software Engineer or Web Developer roles.

Technical Skills

Programming Languages: Java (Advanced), Python, C, C++, JavaScript

Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design

Frameworks and Libraries: NumPy, Pandas, Scikit-learn

Machine Learning: Regression Models, Data Preprocessing, Feature Engineering, Model Evaluation (R^2 , MAE)

DevOps & Tools: Docker, Kubernetes (Basics), Git, GitHub, CI/CD Pipelines, Netlify, Linux

Projects

Automatic Street Light System – Hackathon Project

Aug 2023 – September 2023

Arduino, C++, Sensors

- Built a smart street lighting system using IR, LDR, PIR, and radar sensors to optimize energy usage.
- Enabled real-time motion detection and automated lighting control.
- Presented a working prototype at a national-level hackathon (SIH).

Growth Sphere – E-learning Web Platform

Aug 2024 – December 2024

Software Engineer Intern

- Developed a responsive e-learning platform focused on improving student skills and study habits.
- Designed modular and reusable UI components for better user experience.
- Deployed the application on Netlify with version control using Git.

House Price Prediction – Machine Learning Project

June 2025 – December 2025

Python, NumPy, Pandas, Scikit-learn

- Built an end-to-end machine learning model to predict California housing prices.
- Implemented regression techniques and evaluated model performance using R^2 and MAE metrics.
- Performed data preprocessing, feature engineering, and model validation.
-

Leadership / Activities

- Team leader in Smart India Hackathon (SIH) participations (2023 and 2024).
- Achieved 5-Star rating on HackerRank in Java and Problem Solving (Data Structures and Algorithms).
